## WHAT'S NEXT?

**2026**

# penpot 2026

## Ambassador Program

A learning network where design, code and Open Source come together

## MCP Server

Connect Penpot to your AI client and enable multi-directional workflows with our open API

## New Render Engine

Design with large files will feel smooth and faster to streamline the design process

## Quality of life

With main features in place, it's time to refine the details

## Design systems governance

Manage Design Systems easier and share them with other teams

## Future proof prototyping

The prototyping and view mode features will be redesigned
